to Thrive!*

Kindness Counts Program

Be Kind

*Kindness
Empathy*

Be Smart

*Decision Making
Tough Choices*

Be a Friend

*Friendship Skills
Bystander to Upstander*

Created specifically for elementary school students, our **Kindness Counts** Program combines teacher-delivered lessons designed to enhance empathy, friendship and decision-making skills with interactive staff and student workshops. Kindness Counts gives you the support you need to move children from being bystanders to being upstanders - supportive peers who stand up to mean-spirited behavior. **One Caring Adult™** will deliver meaningful professional development sessions for staff, interactive student workshops plus teacher & student materials, all designed to celebrate kindness and enhance a positive school climate.

Be Kind, Be smart, Be a Friend!

The Kindness Counts Program Includes...

- 1) Staff professional development workshops focused on building a positive school climate
- 2) Interactive student workshops
- 3) 6-lesson Teacher's Manual for both lower and upper elementary grades
- 4) Student worksheets for each lesson

(Teacher's manual and worksheets are PDF versions to download & print)
